

BUSCHMAN
CORPORATION

Performance for the long run.

SMOOTHING RODS

Buschman Smoothing Rods Keep You Running—Longer.

Buschman smoothing rods deliver consistent coating coverage, dependable performance, and long life—to reduce costs and optimize efficiency in your day-to-day operations.

Buschman smoothing rods come in two varieties: **Duramic™** heat resistant, hard ceramic coated; and even harder **Dura-Life™** triple chrome coated.

Nothing fits a Buschman metering rod better than a Buschman Rod Holder. Call us today at **1•216•431•5037** to order the rod holders with the perfect fit.

DURA-LIFE™ TRIPLE CHROME COATED

- Available in Single, Double & Triple chrome plating; increases rod life up to 250%.
- Dura-Life chrome plating eliminates macro cracks & increases density.
- Available in lengths up to 11 meters (432in).

Smoothing Rod Applications

- Clay & color coating
- Coating paperboard & linerboard
- Dual rod press as smoothing applicator to remove rod lines
- Light Weight Coatings (LWC) on to fine papers
- Specialty & custom coating applications

DURAMIC™ CERAMIC COATED

- Heat resistant ceramic minimizes wear.
- Lowest friction available leads to longest rod life.
- Good for multiple web width applications.
- Available in lengths to 9.6 meters (378in).

Smoothing Rod Specifications

- Material: Stainless steel
- Diameter: 6.35 mm – 38 mm (1/4" – 1.5")
- Lengths: Up to 12 meters (480")
- Coating: Hard Chrome plating, Rockwell C 68-73; thicknesses to 0.075mm (0.003in.) Ceramic coating thicknesses to 0.25mm (0.010in)
- Special ends: All special ends configurations available
